Task 2

Paper Title:
WiSH: WiFi-Based Real-Time Human Detection

Presentor:
Md Asaduzzaman Sarker Anik - 23166031

Course:
CSE 713

Group: 12

ST: Mehnaz
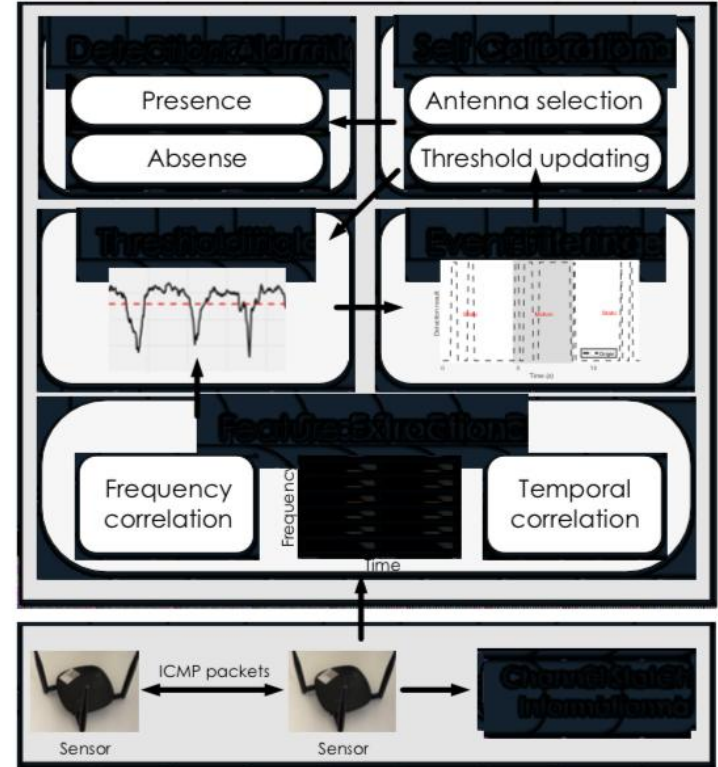

RA: Sania

Introduction

- Applications
- Goal
- Proposed system

Methodology

- Lightweight
- Time and Frequency
- Event Filtering

Results

- Accuracy 98%
- Delay 1.5s at 20Hz
- Event accuracy 92.6% on 90Hz

Limitations

- Low sampling rate
- Hardware constraint
- Unexplored scenarios
- Energy consumption

Future Work

- Untapped Parameters
- Short Operation Time

Thank You
